837881		Industrial Fan (MaxxAir, BF30DDREDUPS)	Global Industrial Fi
877882		Bench Lathe (Jet, 321378 BDB-919)	JET® 321378 BDB

Track High Value Assets with XPTTrack

XPTTrack cloud-based software provides flexible, real-time management and tracking intelligence to help business managers and teams locate, visualize, and manage assets, equipment, workflows, and personnel increasing intelligence, efficiency, and saving money.

**Pro
Tip**

XPTTrack is accessible on virtually any screens size and browser. Start small and infinitely scale usage with this low friction, highly flexible and configurable tracking service for assets and people all in one centralized place.

Asset Tracking

Identify any business asset and neatly organize details, descriptions, categories, types, lifecycle, and location to maximize efficiency and minimize loss and downtime.

Asset Condition and Inspection

Manage and track of the condition of and inspections of assets, upload inspection certificates for critical instruments, and photos of damages needing repair.

Workflow Tracking

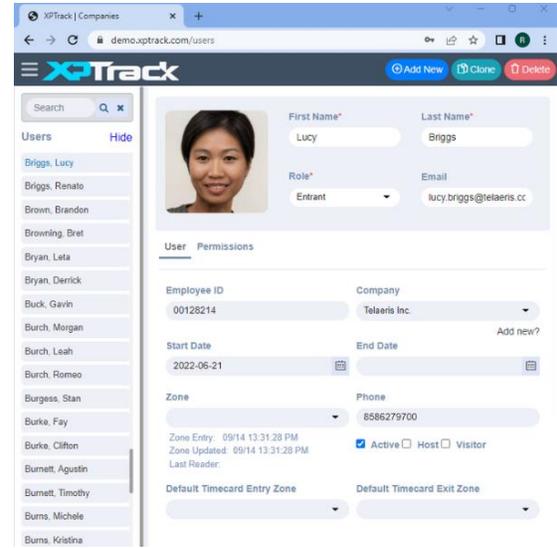

Apply a barcode or RFID tag and visualize assets and products traveling through the manufacturing process for better tracking, business intelligence, and planning.

Personnel Tracking

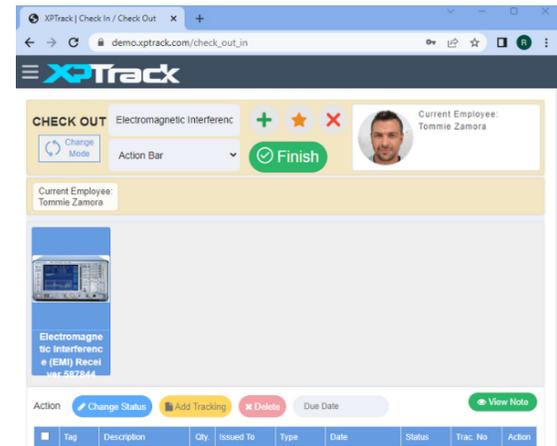

Monitor and visualize all personnel and visitors onsite in real-time improving workplace safety, increasing productivity, and manage time and attendance.

Emergency Evacuation Mustering

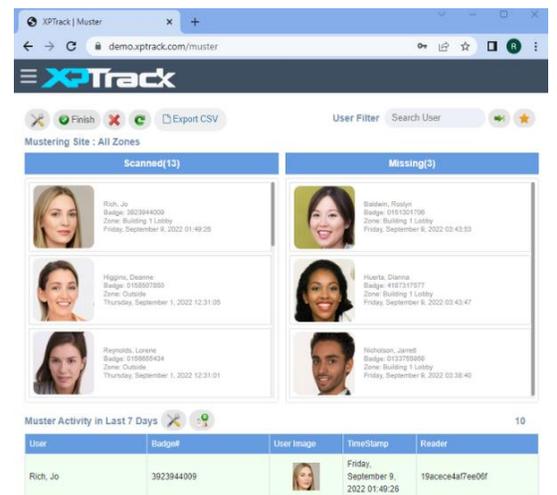

Use badges or biometrics to ensure everyone is safely accounted for during a true emergency and improve evacuations, safety, and OSHA / regulatory compliance.
